MISS M'FARLAN IS DROWNED

**Popular Young Lady of This
City Dies at Blue River
Park.**

**Was Picnicking With the Ladies'
Aid Society of Christian
Church.**

Word was received here about ten minutes of three this afternoon that Miss Mae McFarlan, daughter of Mr. and Mrs. Ben L. McFarlan, ex-county sheriff and Republican county chairman, had met death by drowning about 2:05 this afternoon in Blue River, one-half mile west of Morristown.

Miss McFarlan had gone picnicking at Blue River Park with the Pastor's Aid Society of the Main Street Christian church, of which she was a member. The party went out to Morristown on the 11 o'clock car this morning.

It seems that the first word of the accident was brought to this city by Horace Brooks, who was returning from Indianapolis. His car stopped at the park and Mrs. E. O. Humes came running to the car and informed the passengers of the accident. Mr. Brooks upon his arrival in this city told Mr. McFarlan of the accident upon the street. Mr. McFarlan left for Morristown on the 3 o'clock car.

It is reported that Miss McFarlan was in the river wading in company with Mamie Kemp and Lou Whitton, all in bathing suits. They had hold of each others hands, forming a chain, Miss McFarlan toward the center of the river. They found themselves getting deeper into the water, and when Miss Mae found that she got beyond her depth, she let go rather than drag her companions along, and before any one could realize what had happened she was gone.

The river, just below the bridge where the ladies were wading, is from ten to fifteen feet deep for a distance of possibly 500 yards and for this reason it has been impossible to recover her body up to the time of going to press. Two good divers from this city made repeated efforts to find the body, and the latest report states that the grabbing hooks of the Morristown fire department are being used in an effort to find the body. A seine was also used, but without results.

Miss McFarlan was about twenty-four years of age. She was a Christian in the true sense of the word and she devoted much time to church work. She was always of a cheerful and lovable disposition and to the citizens of the community it does not seem possible that she could have met such a terrible and untimely fate. Miss McFarlan resided on North Perkins street at the home of her parents.

The Ananias club was in session at the central fire station today, with vice president, Smith Carney, presiding, and secretary Hildreth present. The chief subject under discussion was the I. & C. extension to Connersville.

Edward Ray, living on the Cooper farm, south of town moved his threshing machine to the farm of John Davis, south of Gwynneville today, and will begin threshing there tomorrow.

NAMING THE FARM

**Farmers Discussing the Best
Name to Be Given Their
Places.**

Farmers all over the county are talking of the advisability of naming their farm. Of course some of the fine farms of this county have been named for years, but the majority have not yet arrived at that distinction.

The lettering is done in cement and laid on the lawn in the front yard or else put in an arch over the driveway. Any place is suitable and shows up beautifully on moonlight nights.

Around Anderson and Marion where the electric lines run through the country the farms have a name place of electric light bulbs over the entrance archway. This is a great scheme and is the admiration of tourists throughout the gas belt.

RUSH COUNTY BOYS PAY HEAVY FINES

**They Created a Disturbance in
Maplewood Saturday Night
and Were Arrested.**

The Connersville Examiner of Tuesday says: Yesterday afternoon officers Manlove and Gates drove to Rushville and arrested two young farmers by the name of Glen Dolan and Jacob Reiff. They were brought to this city and arraigned in the city court. Dolan on charge of fast driving and Reiff for disturbing the peace. Both entered a plea of guilty, the former being assessed a fine and cost of \$9.50, and the latter \$10.40, all of which was paid. Both cases were heard by Mayor Gray. All affidavits were filed by officer Manlove. The trouble occurred in Maplewood last Saturday at midnight.

GAME WARDENS ARE VERY BUSY

**Many Arrests at Shelbyville
and Columbus—None Here
as Yet.**

The game wardens are very busy at Shelbyville and Columbus. Several arrests have occurred at both places upon affidavits filed by game wardens, who have found men disobeying the game laws. Arrests for dynamiting and seining fish, shooting squirrels out of season and other similar offenses have resulted in four or five men at each place being heavily fined. In no case was the fine less than thirty dollars.

Game wardens have been hanging about Rushville and it was reported that several men had been caught disobeying the law, but no arrests have as yet been made.

HILL CASE TO BE RE-OPENED

**The Coroner of Shelby County
Will Continue the Taking
of Evidence.**

It was announced at Shelbyville yesterday that the coroner's inquest in the Hill case is to be reopened and that a large number of witnesses had been summoned for that purpose. The coroner of Shelby county has never yet closed the inquest, and it is thought that a number of witnesses would be examined today.

The detectives, it is said, have obtained evidence that points to the guilty party and the inquest is to be held for the purpose of getting that evidence on record.

ARE SLOW IN SELLING IT

**Decatur County Farmers
Not Anxious to Sell Right
of Way to I. & C.**

**There are Yet Chances of Line
From Greensburg to
This City.**

Senator Carl Wood, of Greensburg, who is looking after securing the right of way for the traction road from Shelbyville to Greensburg, says that he was not meeting with the encouragement he had been led to anticipate when the question of building the road was revived a few days ago. Up to this time contracts have been closed with only two farmers between Greensburg and Adams, with the others holding out for what he deems exorbitant prices for their land. One land owner is demanding a price equal to \$250 per acre, for the strip across his farm and others are not far behind in the altitudinousness of their demands. This effort to hold the company up is not setting well with Mr. Henry and his associates, and it will have the effect of retarding the beginning of the actual work on the line.

Mr. Henry has said all along that he desired to treat the people absolutely fair in right-of-way matters, but that he did not propose to be held up and compelled to pay more than the land is worth for railroad or any other purpose. Mr. Henry has stated that he can take either of two routes to Indianapolis—one by way of Shelbyville, and the other by way of this city, and while the Shelbyville route was probably the natural and direct way he would come by Rushville rather than submit to exorbitant charges for land. While the Rushville route to Indianapolis is fourteen miles longer, Mr. Henry can put Greensburg passengers into Indianapolis by way of Rushville within ten minutes of the time that they can go by way of Shelbyville owing to the higher rate of speed attained on the Rushville division. This means that if the people between Greensburg and Shelbyville do not want the road, it can be run this way without loss to the company.

Condemnation proceedings were begun on Monday in the Shelby circuit court against parties between St. Paul and Shelbyville, where the hold-up game was attempted.

WILL DEFEND BANKER JONES

**Prosecutor Elmer Bassett Will
Conduct Case and Deputy
Nipp is Released.**

Deputy Prosecutor Carl V. Nipp has been released from duty in the case of Oliver O. Jones, the ex-Arlington banker, now in jail here on the charge of accepting a deposit from Edwin Addison, when he knew that the bank was insolvent. Mr. Nipp was Mr. Jones' attorney during the stormy days of the bank, and as he was deputy prosecutor also, Mr. Jones' arrest placed him in a very ticklish position.

Prosecutor Elmer Bassett will either conduct the case against Jones or appoint a special deputy. Watson, Titsworth & Green will also defend Jones. With Stevens & Nipp this puts a very formidable array of legal talent upon Mr. Jones' side of the fence.

The attorneys conferred with Mr. Jones this morning regarding the case and later some of them went to Arlington on business connected with it. There is still considerable excitement at Arlington over Jones' arrest and it is said that there is some hesitancy about going ahead with the prosecution.

Cary Walton, of Greenfield, is the guest of T. F. Walton, Sr., and family.

THE RED MEN

**Have a Set of Laws it Would be
Well For State Legislature
to Adopt.**

Attorney Charles Smith, of Cincinnati, says that the Improved Order of Red Men has a better set of laws in reference to appeals and errors than those are, under which the courts of most States operate. A man may be proved guilty of crime beyond all doubt in State courts, but because some judge or lawyer or juror made some technical blunder the case is reversed. The rule of the Red Men is that if the technical error committed does not affect the merits of the case and the guilt of the accused is nevertheless clearly established, the case is not reversed, but affirmed. He thinks State legislatures would do well to learn a few lessons from the Red Men and amend the old fossil appeal and error laws and thereby save much senseless litigation.

YOUNG LADY IS BADLY BURNED

**Miss Mae Magee of Greensburg,
Well Known Here, Painfully
Injured.**

Miss Mae Magee, a well-known society lady of Greensburg, was painfully burned about the hands and arms yesterday morning by a gasoline explosion, which occurred at her home in that city. At the time of the accident she was engaged in cleaning some ribbon and was using gasoline in the operation when in some manner the fluid ignited, flashing up on her hands and arms, burning them severely. The injuries are very painful, but are not believed to be fatal.

Miss Magee has a host of friends in this city who regret to learn of her misfortune and wish her a speedy recovery. Misses Edith Hiner and Lucia Wilson, of this city, are at present visiting Miss Magee.

ALEXANDER MAY BE DEMENTED

**Man Found Hanging to Fence
Unable to Account for His
Being Here.**

The man found hanging on a fence in the northeast part of town Monday morning and who gave his name and address as William Alexander, of Elmwood, O., is reported as being better today. Alexander is at the county poor farm. Tuesday morning he hobbled out of his room and walked about the yard but he is still very weak.

Superintendent Newhouse says that the man is undoubtedly demented. He tells many conflicting stories and is unable to account for his being here. His only explanation is that the train went off and left him and he became lost. The police are awaiting word from Elmwood. The man is believed by many to be an escaped lunatic from the Richmond asylum.

Omer Trobaugh has moved into the Tolliday property, corner Eleventh and Spencer streets.

Sheriff Bainbridge has the stone foundation in for his new residence on the corner of Third and Julian streets.

Not content with having the largest farm in the world devoted exclusively to the breeding of one variety of poultry, the White Plymouth Rocks, U. R. Fishel, of Hope, has embarked on a new venture. In addition to raising thousands of chickens each year he has decided to begin the raising of Shetland ponies. He now has a herd of six or eight and reports say that he will add still more.

THE LAST OF THIS MONTH

**Will Witness the Gathering
of Peace Missions at
Washington.**

**Nothing More is Heard of China's
Request to be Represented
at the Conference.**

Washington, July 12.—By appointment Kogoro Takahira, the Japanese minister, will call on the president at Oyster Bay Friday morning for a conference regarding the peace negotiations. The minister will return probably to Washington Saturday and then go away for a brief rest, of which he is much in need.

The Japanese mission is expected to reach New York about the last of July. Baron Komura will be accompanied by Colonel Tachibana, a newly appointed military attaché at Washington, who will be one of the advisers of the mission; Mr. Adachi, first secretary of legation, unattached, who served with Mr. Takahira while the latter was minister to Rome; Mr. Sato of the foreign office, who accompanied Prince Fushimi to this country last year; an American lawyer who has been legal adviser to the foreign office for twenty-five years; Mr. Yamana, chief of the Japanese political bureau, and two private secretaries. The Japanese mission will be supplemented at Portsmouth by Mr. Takahira, the other plenipotentiary, Commander Taheshita, the Japanese naval attaché at Washington; Mr. Hanihara, third secretary of legation here, and probably several other secretaries from the legation.

Throughout the conference the Japanese legation will remain at Washington with Mr. Hickl, first secretary, in charge. The legation will keep in close touch with the plenipotentiaries, and through its proximity to the state department will render material assistance to them.

Nothing more is heard here of China's request to be represented at the conference. This action on the part of China has by no means pleased Japan, and the latter's objection was fully expected by the Washington authorities. Whether the president has communicated with China on the subject cannot be learned here. In diplomatic quarters sympathetic to Japan it is declared that China's request was made at the instance of Russia, but this statement lacks official confirmation.

ROBBERS RAID CAMBRIDGE CITY

**\$800 Worth of Dry Goods Carried
From a Store—Other
Robberies.**

Burglars are terrorizing Cambridge City. Several places have been robbed and articles of value taken. Monday night the large dry goods and clothing store of Morris & Kraft was partly looted by robbers. Wagons were driven to the back door of the store and they were filled with plunder, which the robbers carried away. The value of the stolen goods is estimated at \$800.

The tracks of the two wagons were found Tuesday morning, but there is no clue to the robbers, who are supposed to have gone toward the Ohio line. The authorities in all adjacent towns have been notified to look out for the robbers.

The plunderers broke open the back door of the store, ransacked the cashier's desk and then visited every department of the store, taking the best of everything they could find.

While engaged in scuffle with a son of Elsbury Pea yesterday evening, a lad by the name of Butts threw a rock and struck his opponent on the wrist, cutting a bad gash and severing tendons. Dr. W. C. Smith was called and dressed the wound. The boy is doing nicely today.

POOR EXPENSIVE

**Indiana Paupers Cost 11 Cents
For Each Adult and
Child.**

Statistics just compiled show the amount of money expended by township trustees for the poor throughout the State, exclusive of that paid out by county auditors.

There are 1017 township trustees in Indiana and they gave \$381,899 to take care of the poor and needy during the year of 1904, according to reports filed by them with the Board of State Charities.

The whole amount equals about 11 cents for each man, woman and child in the State enumeration census of 1904. Comparison of the amounts show that Marion and Wayne counties spent over \$11,000 each.

WHEAT IS NOW OUT OF DANGER

**Continued Rains Would Have
Caused Great Damage
to Farmers.**

The bright sunshine of today has set the farmers at rest for the wheat and hay is now out of danger and the harvest may proceed. Some loss has been caused by the continued rains and the farmers were beginning to think seriously of their wheat which is still in the shock. Already reports are heard from the south part of Indiana, where the wheat was cut a week before the harvest in Central Indiana began, that the wheat is sprouting in the shock.

Had the rain not stopped when it did this would probably have been the case here. The sun today, however, is drying things out nicely. The wheat cutting is practically completed, and the farmers are now ready for threshing. By the last of the week threshing will probably be well under way.

WILL PLAY AT BETHANY PARK

**Rushville Band Has Been Se-
lected to Fill a Week's
Engagement.**

The executive committee of the Bethany Assembly has secured the Rushville band for a seven days engagement. They have also secured the services of Miss Ethel Barnard, a pianist from Burlington, Ind.; Miss Una Berry, one of Lafayette's noted singers; the Enos Ladies' Quartette, from Sullivan, Ind.; W. E. M. Hackleman, a cornetist from Indianapolis. Those who attend the encampment will also have the opportunity of hearing Charles Victor House, violinist; C. H. M. Billy, cornetist; Halvin House, pianist, and W. Kemper Harrold, violinist.

George C. Wyatt, secretary of the Bethany Association, says that the one to be held this year, July 20th to August 14th, inclusive, will be one of the best in years. A number of people from this city will probably attend.

Connersville Examiner: The next game on the home lot will be with Rushville, a week from next Sunday, that is providing the Rushville team holds out that long. It looked very much as though Manager Geraghty's crowd would be looking for new jobs a few days ago, as the attendance at the games has not been sufficient to pay car fare, let alone salaries. The team has been somewhat reorganized, and while its playing strength has not been improved the players are said to work together better. Last year Rushville was compelled to shut up shop long before the base ball weather had passed, and it is very likely that the same thing will happen this year. The games between Connersville and Rushville will be interesting, however, as the teams are very evenly matched.

BLOOMINGTON OVERWHELMED

**Local Team Slaughters Pitch-
er's Curves and Walk Away
With Second Game.**

The local team yesterday overwhelmed the Bloomington team at Bloomington by a score of 14 to 3. Rushville took a splendid liking to Siebenthaler's curves and the slaughter was terrible. Wagner first went to the rubber for Rushville. He only allowed one hit. As soon as it was seen that the game was won he retired in favor of Taylor, who also held Bloomington to one hit. Rushville, on account of wet grounds played a poor game in the field. Dugan, the new pitcher and right fielder, got five hits out of six times at bat. Score: 1 2 3 4 5 6 7 8 9—RHE
Bloomington 0 1 0 0 2 0 0 0—3 2 7

RUSHVILLE, IND., JULY 12, 1905.

Not only in State and National politics does President Roosevelt achieve success equal to that of the foremost in politics, but he adopts the same methods in diplomacy and again achieves results that the world will wonder at for some time to come. Not only does he adopt habits that are to be commended, but he succeeds and then he becomes conspicuous, and thus the fact that he succeeds is made known far and wide. Such an example has an influence that is incalculable.

The greatest problems of America agriculture are not the narrower technical ones, but the relations of the industry to economic and social life in general. Agriculture has not as yet been able to call to its aid in any marked degree those forces and tendencies which have culminated and been of such economic value in the general business world, in the great distributive aggregation. The complete solution of the economic ills of American agriculture may not be in co-operation, and yet in both the productive and distributive phases this is perhaps the most apparent remedy. Co-operation in distribution has made a beginning but co-operation in production is still almost unknown.

After the close of the Russo-Japanese war, Japan will be the foremost naval power in the Far East, partly by captured and newly acquired war ships, but particularly on account of her positive genius for modern naval warfare displayed throughout all ranks of the Japanese navy. On account of the nearness of such a naval power to the Philippine Islands, the Board of Naval Strategy of the United States no doubt have realized that unless Congress is willing to continue a liberal policy in the matters of naval appropriations, we are within a measurable distance of the time when the Japanese will have in the Pacific, a navy that is enormously superior to any possible force which the United States could concentrate in those waters.

BUSINESSLIKE METHODS

Hanly-Administration Looks Well to the Tax-Payer's Interests.

Indianapolis, July 12.—The state debt is being rapidly diminished. \$253,000 worth of 3 per cent school fund refunding bonds that are a part of the state indebtedness having been cancelled today. The bonds are held by New York financiers and warrants in payment of the amount were mailed to them by Auditor of State Sherrick. The bonds had three years to run, but it was optional with the state to pay them before that time. It is likely that all the state debt that is payable within the next few years will be cancelled during Governor Hanly's administration, notwithstanding the reports so vigorously circulated last winter prior to the convening of the legislature that the state was "broke" and could not afford to build new institutions. There are still \$154,000 worth of 3 per cent school fund refunding bonds outstanding, but they will be cancelled next January. There are \$800,000

DEADLY FIRE-DAMP

More Than a Hundred Minors Killed in Welsh Colliery.

Cardiff, Wales, July 12.—An explosion of fire-damp in No. 2 pit of the United National Colliery company at Wattstown in the Rhondda valley, the center of the great Welsh coal fields, is believed to have resulted in the loss of at least 126 lives.

The explosion was followed immediately by the belching of clouds of smoke from the shaft. In which 150 men were working. The force of the explosion wrecked the machinery at the mouth of the pit. All communication with the doomed men in this direction was completely cut off. No. 1 shaft adjoining, has ordinarily afforded communication at No. 2. The men in No. 1 and the few who escaped from No. 2 were drawn up.

A rescue party descended, but its work was seriously impeded by the foul air and the falling masses of earth dislodged by the explosion. Altogether fifty-nine bodies have been recovered.

Heroic efforts have been made to reach the entombed men, but the absence of all sound from the interior of the mine tells the tale of the worst disaster that has taken place in south Wales since 1894. Efforts at rescue are still in progress and currents of fresh air are being driven through the shaft, but the rescuers are working without hope of reducing the list of fatalities.

WILL GO TO BOTTOM

Probe Will Not Be Spared in Agricultural Scandal.

Washington, July 12.—Acting Attorney General Hoyt has received from Secretary of Agriculture Wilson the papers in the cotton report investigation. Subsequently the papers were placed in the hands of United States District Attorney Morgan H. Beach, who will probe into the whole subject and make a thorough inquiry embracing every detail connected with the compilation of the statistics involved. Mr. Hoyt stated that he had been urged by Secretary Wilson to probe the matter to the bottom and to use any means at his command to get at the true condition and to bring all guilty persons to trial. Mr. Hoyt and Mr. Beach have already been in communication and it will be determined whether there is any statute under which a criminal prosecution may be directed against Edwin S. Holmes, the former associate statistician of the department of agriculture, who was dismissed, it is alleged, because he "juggled" figures in the government crop estimates and furnished advance information to New York brokers, and against any others that may be found implicated. In case criminal proceedings are not possible, some other way to reach the guilty party is to be sought.

Atlantic City Tragedy.

Atlantic City, N. J., July 12.—Edward O. Doughty of Philadelphia shot and killed Mela S. Clyde of Philadelphia and then committed suicide. Doughty was jealous of the woman. He met her on the street and, drawing a revolver, chased her into a crowded grocery store and sent several bullets into her breast. Doughty had a room in the building over the store and, going there, shot himself, dying instantly.

State of the Crops.

Washington, D. C., July 12.—The monthly crop report of the department of agriculture shows the following percentages of conditions: Corn, 87.3; winter wheat, 82.7; spring wheat, 91.0; oats, 92.1; barley, 91.5. The acreage of corn is given as 94,001,000, an increase of 2,080,000.

AFTER THE BOODLERS

Sixty Additional Indictments Returned at Milwaukee.

Milwaukee, July 12.—The Milwaukee county grand jury, which has been investigating alleged graft cases, has returned another big batch of true bills, said to number upward of sixty. Caplases will be made out and placed in the hands of the sheriff for service at once. The number of individuals affected has not yet been made up. The indictments are supposed to cover other county deals than those already investigated. It is also said some of the indictments concern certain state legislators in connection with laws enacted two years ago.

This batch of true bills, added to the thirty-eight returned ten days ago, makes a total of 105 thus far. The last list contains twenty out of the twenty-one names returned in the last batch, there being but five new names not before reported.

COUNTY NEWS

Andersonville.

Ha, ha! Have you seen the reporter this week.

Too much rain will spoil the wheat. Ruby Kelso is no better.

A fox chase is on hands for Wednesday night.

Dr. Metcalf was called to see Vada Hildreth Saturday evening.

Jack Ross spent Monday and Tuesday at Indianapolis on business.

William Emsweller pulled his new threshing outfit through here Saturday. He took it as far as New Salem.

The ball game Sunday between Rushville and Buena Vista was a very close one. Both teams played very good ball, yet the umpire gave bad decisions on both sides. Score 6 to 7 in favor of the Buena Vista team, ten innings were played on the account of a tie at the ninth inning.

Willie Coffee who has run a restaurant at Brazil for a few years has sold out and returned home to spend a few days with home folks. He will probably go into business somewhere again.

William Emsweller and wife spent Saturday at Connersville on business.

John Osborn, of Rushville, passed through here Sunday on his wheel enroute to Buena Vista.

Sam Rodgers and Jack Ross attended the ball game at Buena Vista Sunday.

Willie Linville, who went to California last spring to spend the summer, returned home last Sunday by way of Portland, Oregon.

While feeding his horse as usual last Friday, rural carrier, Bert Manley, of Laurel, had both shoulders thrown out of place. The horse became frightened at some pigs while eating and started to run. Mr. Manley held on to the horse while he ran around a tree and across the road into a wire fence, where the horse was cut very badly on two legs. Bert was then under the wagon with both shoulders out of place. Dr. Metcalf was called and he was taken to the doctor's office. Assistant carrier, Ed. Manley, is now driving the mail.

Miss Cora Lewis, of Decatur county, and Mr. Roscoe Linville, of Rush county, were united in marriage last Sunday evening at the home of the bride, by Rev. Taylor, of Clarksburg.

On Monday at 12 o'clock a table that was nicely decorated and loaded down with everything that was good for man to eat was witnessed by a host of friends at the home of the bridegroom.

After some good music in the afternoon, ice cream was served, with cake that would almost melt in your mouth.

Those present were Rev. Taylor and wife, of Clarksburg; Miss Sarah Linville, of Indianapolis; Mrs. Will Montgomery, of Richland; Landy Lewis and family, Mrs. Lewis and daughter Enry, Frank Linville and mother, Elmer Lewis, Lewis, Pearl, Goldie and Omer Barber and Clara Coll. Every one enjoyed a day well spent together and left their homes wishing the newly married couple a long and happy life.

IS AN ENEMY TO THE TREES

Ravages of the Cottony Maple Scale Pronounced This Year.

If the shade trees are to be preserved, something will have to be done to protect the ravages of the cottony maple scale. The pest is exceptionally vicious this year, and ruthless assaults are being made by the tiny borers upon the stately shades in yards and on the lawns against the curb line.

Rushville shade trees have suffered only to a limited extent from the scale, but at Indianapolis the pest is making wholesale ravages. W. W. Woolen, of that city, says the cottony maple scale has not confined its attention to maple trees this year, as Mr. Woolen has noted that it has attacked a venerable linden tree, and from this fact he fears that in time it will continue to spread to other trees. Wherever withered green leaves are found under a maple tree at this time of the year it is a sure sign that the cottony scale is getting in its work.

Looking aloft, one will see a filmy white substance encircling the tender growth of a year or more. On the inside of this cottony down a number of little borers live. They go through the bark and suck the nourishment out as it comes up from the roots, thus depriving the branch and leaves of sustenance. The result is that the leaves gradually drop off and in time the tree dies.

The most effective treatment is spraying the infected trees with kerosene emulsion, a preparation of soap, water and kerosene. Another precaution can be taken early in May by sprinkling the ground under infected trees with a solution consisting of eighty parts of water and twenty parts of oil.

In our article yesterday concerning the shortage on the books of the treasurer of the Milroy Peoples Gas company we neglected to say that the charges made against Cashier Allison of the Milroy bank, are denied by him and according to his side of the case are wholly untrue. In justice to Mr. Allison we make this statement.
